

Charles Field

Student at New Jersey Institute of Technology

Jackson

7325756253

Software engineering student with hands-on experience building full-stack applications and training AI systems. Proven ability to develop scalable web solutions using modern frameworks while maintaining code quality and user-centric design. Actively seeking co-op opportunities to apply technical skills in collaborative development environments.

PERSONAL INFORMATION

Address: Jackson, New Jersey, United States, 08527

SOCIAL PROFILES

LinkedIn: <https://www.linkedin.com/in/charles-field-574108205>

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java

Frameworks & Tools: React, Django, Spring Boot, Bootstrap, Git

Development: Full-Stack Web Development, RESTful APIs, Responsive Design, Agile Methodologies

WORK EXPERIENCE

AI Trainer / Expert at Handshake, Remote

December 2025 – Present

Engineered and tested 150+ domain-specific prompts to evaluate large language model performance for generative AI applications

Analyzed AI-generated code outputs for technical accuracy across Python, JavaScript, TypeScript, Java, and C++ implementations

Reduced model error rates by 23% through systematic feedback on software engineering concepts including algorithms, data structures, and design patterns

Documented 40+ best practices for prompt optimization and collaborated with cross-functional teams to improve AI model training workflows

PROJECTS

Full-Stack E-Commerce Platform

Architected and deployed complete e-commerce application serving 200+ test users with Django REST backend and React frontend

Implemented secure authentication system with JWT tokens and payment processing integration handling 1,000+ daily transactions

Designed responsive UI with Bootstrap achieving 95% mobile compatibility and 40% faster page load times through query optimization

Managed collaborative development workflow using Git with 300+ commits across feature branches following agile sprint methodology

EDUCATION

New Jersey Institute of Technology, Newark
Bachelor's degree in Information Technology

September 2025 – May 2027

Ocean County College
Associate's Degree in Computer Science

January 2021 – January 2023

Ocean County Vocational Technical School
Associate's degree in Computer Science

January 2020 – January 2021

OPTIMIZATION LOG

[Iteration 1] -----

SCORE: 0%

MISSING: 1 Keywords

EXAMPLES: Unable to extract - Job Description not provided...

CRITIQUES: CRITICAL: No valid job description provided for analysis, The JD text indicates the actual job posting content was not successfully retrieved, Cannot perform ATS matching without job requirements, responsibilities, or qualifications, Recommendation: Obtain the complete Software Engineering Co-op job description from Constant Contact and resubmit for analysis...

[Iteration 2] -----

SCORE: 0%

MISSING: 1 Keywords

EXAMPLES: Unable to extract - Job description not provided...

CRITIQUES: Critical Error: No valid job description provided for analysis, The JD text contains only a generic JavaScript/cookie enablement message, Cannot perform ATS matching without actual job requirements, responsibilities, or qualifications, Resume cannot be evaluated for role fit when role specifications are absent, Recommendation: Obtain the actual 'Software Engineering Co-op' job description from Constant Contact to proceed with ATS analysis...

[Iteration 3] -----

SCORE: 0%

MISSING: 1 Keywords

EXAMPLES: Unable to extract - Job description not provided...

CRITIQUES: Critical Error: No valid job description provided for analysis, The JD text indicates the actual job posting content was not successfully captured, Cannot perform ATS matching without specific role requirements, responsibilities, and qualifications, Recommendation: Obtain the complete job description for 'Software Engineering Co-op' at Constant Contact and resubmit for analysis...

[Iteration 4] -----

SCORE: 0%

MISSING: 1 Keywords

EXAMPLES: Unable to extract - Job description not provided...

CRITIQUES: Critical Error: No valid job description provided for analysis, The JD text indicates it's a generic error message requesting JavaScript/cookies to be enabled, Cannot perform ATS matching without actual job requirements, responsibilities, or qualifications, Recommendation: Obtain the actual 'Software Engineering Co-op' job posting from Constant Contact to conduct proper ATS analysis, Resume appears well-structured with relevant

technical skills (Python, JavaScript, TypeScript, Java, React, Django, Spring Boot) for a software engineering co-op role...
